#### **DETAILED ACTION**

1. This Office Action is responsive to the Amendment filed on 3/5/09. Accordingly, claims 1-5, 8 and 10-14 are currently pending.

#### **EXAMINER'S COMMENTS**

1. The drawings are objected to because: in figures 1 and 6, functional blocks should be labeled with corresponding functional names in order to help viewers to understand the block diagrams shown in the figures, e.g., in figure 1, block (10) is suggested to be labeled with "MPEG-2 Source", block (11) with "Coder and Modulator", etc. Correction is required.
2. Applicant's arguments filed on 3/5/09, with respect to the previous objections on Drawings, have been fully considered but they are not persuasive.

The applicant mainly argues that the objection should be withdrawn because the drawings are compliant with the drawing requirements for U.S. National Stage applications, identified in MPEP 1825. PCT Rule 11.11 that does not require labeling figures with functional names.

The examiner respectfully disagrees. PCT Rule 11.11, (MPEP 1825), *does* require that in the case of electric circuits and block schematic or flow sheet diagrams, the drawings should include a few short catchwords indispensable for understand. Also, 37 CFR 1.84(n) indicates that graphic drawing symbols and other labeled representations may be used for conventional elements where appropriate, subject to approval by the Office, and symbols with unclear meanings should be labeled for clarifications (see MPEP 608.2). For a clarification to the drawings, it is deemed that functional blocks of figures 1 and 6 should necessarily be labeled with corresponding functional names in order to help viewers to understand the block diagrams

shown in the figures. Based on the above rationale, the objections on Drawings are maintained and repeated as set forth above.

### **REASONS FOR ALLOWANCE**

3. Claims 1-5, 8 and 10-14 are allowed.
4. The following is an examiner's statement of reasons for allowance:

-Regarding independent claim 1, none of prior art of record teaches or suggests a multi-carrier transmission system for modulating each sub-carrier of a set of sub-carriers according to a modulation, comprising: a mapper configured to modulate each sub-carrier of a set of sub-carriers using a first constellation to convey additional information signals; and a signal block configured to modulate each sub-carrier using a second constellation to convey parameter signaling signals, wherein the real parts of complex symbols of the modulation are proportional to the real parts of complex symbols of the first constellation and the real parts of complex symbols the second constellation, and the complex parts of the complex symbols of the modulation are proportional to of the complex parts of the complex symbols of the first constellation.

-Regarding independent claim 8, none of prior art of record teaches or suggests a multi-carrier transmission method for modulating each sub-carrier of a set of sub-carriers according to a modulation, comprising: modulating each sub-carrier of a set of sub-carriers using a first constellation to convey additional information signals; and modulating each sub-carrier using a second constellation to convey parameter signaling signals, wherein the real parts of complex symbols of the modulation are proportional to the real parts of complex symbols of the first constellation and the real parts of complex symbols the second constellation, and the complex

parts of the complex symbols of the modulation are proportional to of the complex parts of the complex symbols of the first constellation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Phuong Phu** whose telephone number is 571-272-3009. The examiner can normally be reached on M-F (8:00 AM - 4:30 PM).
